| What is the legacy you want to leave behind?

Most of the legacy from religious based I wish to leave... which makes people to think in different way, if we don't know Bible or verses we are not a Christian people, if we don't go church we are not belongs to Christ... I believe on one thing that their is "only one God and we should love others as we love ourselves" apart from this their is nothing to believe or follow... I wish every people should believe on something apart from seen and felt (God), love on each others makes humanity to grow in us. ☺

Prompt. . .
